bhanzu Learning Center

Level 1A

Kindergarten

1 Hour Classes | Twice A Week

Level 1A at Bhanzu is thoughtfully designed to ignite curiosity and build a fearless foundation in numbers for young learners.

We focus on building strong number sense, visual reasoning, and real-world understanding through playful exploration of numbers, patterns, shapes, and everyday concepts like money and data.

Every class blends hands-on practice with real-life context, so children build both confidence and conceptual clarity from the start.

Shapes And Addition

- Place Value & Expanded Form
- Introduction to Speed Math
- Real-Life Addition Problems
- Counting in Groups
- The Variable Tree Quest
- Introduction to Shapes
- Introduction to 3D Shapes
- Scenario-Based Questions

Shapes And Subtraction

- Units of Measurement
- Perimeter
- From Barter to Dollars
- Taking Away
- Subtraction Decomposition
- Speed Math Subtraction
- Subtraction Practice
- Scenario-Based Questions

Exploring Patterns And Data

- Pattern Recognition
- Symmetry
- Directions
- Reading a Clock
- Introduction to Set Theory
- Introduction to Data
- Introduction to Fractions
- Scenario-Based Questions

This Module Will Be Conducted Post **Summer Break**

Advanced Number Sense

- Number Progression
- Skip Counting on Number Line
- Comparing & Ordering Numbers
- Patterns in Numbers
- Place Value & Expanded Form
- Decomposing Numbers
- Speed Math Addition
- Scenario Based Questions

TEKS & CCSS ALIGNED

Instant Doubt Solving

24/7 AI-powered support that explains concepts while your child gets stuck.

Structured and Personalised In-Class Practice

Every class pairs instruction with guided practice, so concepts are applied the same day.

Mandatory Worksheets

Practice worksheets for every topic with optional higher-order challenge questions.

Summary Notes

Teacher-curated notes shared after every class, giving parents full visibility into exactly what was taught.

Make-Up Classes

Catch up with dedicated make-up classes whenever you miss a session.

How do we measure progress?

- **Sharpen Up:** In-class practice after every session monitored by teachers
- **Knowledge Checks:** Pre & post knowledge check every 2 months
- **Worksheets:** QR coded worksheets to track every child's progress

BLC Parent App

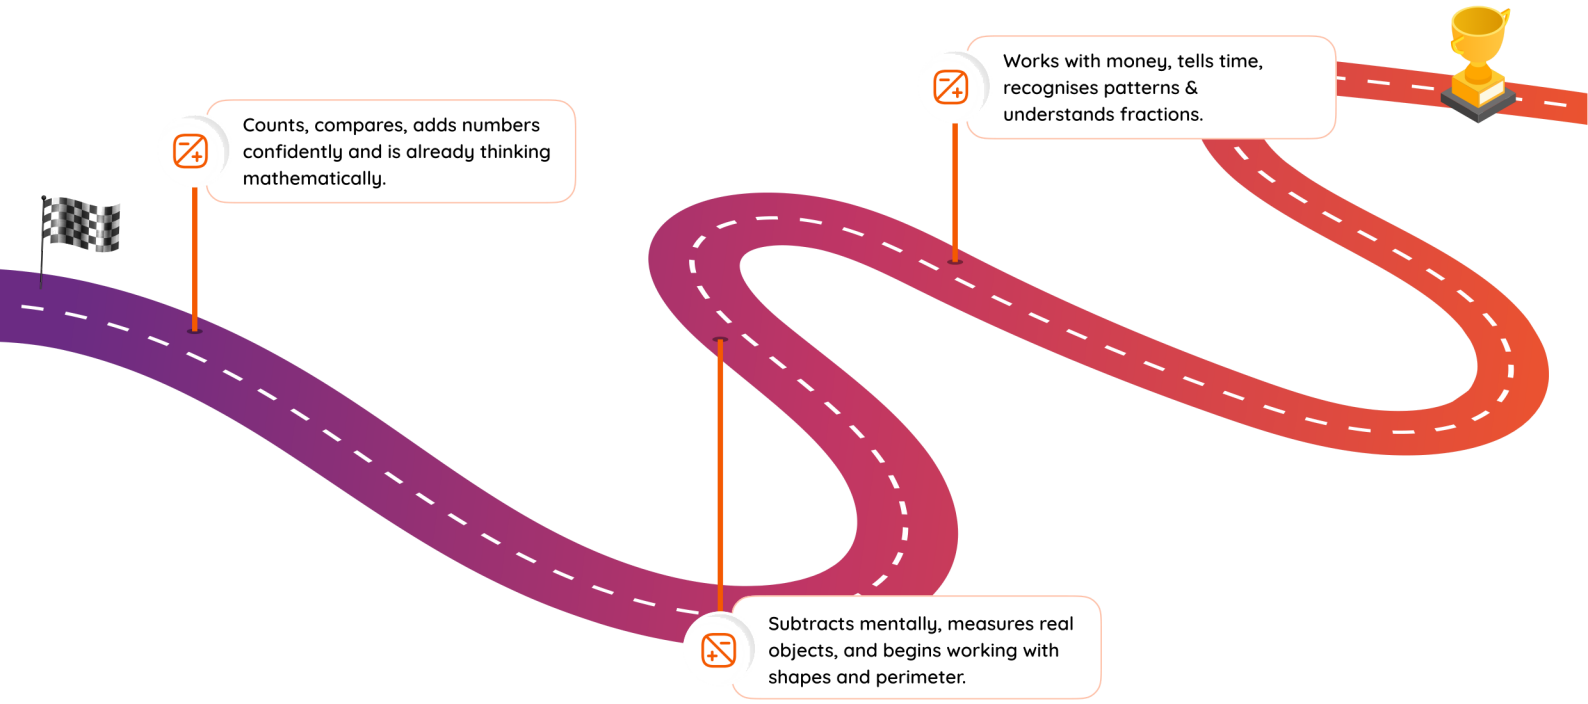

Stay updated with schedules, feedback and detailed progress reports.

Student Dashboard & Brain Gym

Track worksheet scores, attendance & get unlimited practise.

Parent Teacher Meet (PTM)

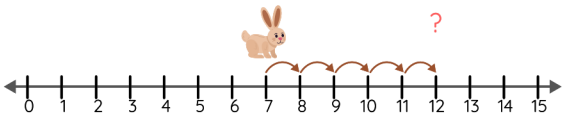

One-on-one check-ins with your child's trainer to review progress, discuss gaps, and align on next steps.

Sample Problems:

Here are a few sample questions that students will be able to solve in their journey of Level 1A.

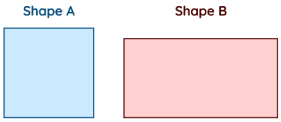

Q1. Ben the bunny starts at 7 and hops 5 steps forward. Where does he land?

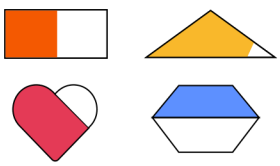

Q2. Solve mentally

$$23 + 14 = _____$$

Q3. Look at Shape A and Shape B below. Which shape has 4 equal sides?

Q4. Each shape is divided into two parts. Which of these do not show a fraction?

What is the Bhanzu Pedagogy?

Developed from proven educational methodologies, tested across 300+ schools, and refined over 60 iterations of real classroom teaching.

WHY before WHAT & HOW

Every topic begins with a real-life story or context, so students understand why a concept exists before they learn how to use it.

Confidence Building through Speed

Regular practice develops stronger thinking skills and the confidence to approach new learning with ease.

Real-Life Applications

Concepts are connected to everyday situations, making learning relevant and easy to apply beyond the classroom

Blitzkrieg Learning

Students are introduced to the most powerful application of a concept first, then guided through the foundations that get them there. Revisiting the same topic multiple times allows consolidation of learning

Story-Based Learning

Using engaging stories to teach, making learning easy to follow and enjoyable.
