

# This Summer,

Your Child Gets **Ahead**.  
And Loves **Every Minute**.

**Math & English**

Starts **June 1st, 2026**

McKinney & Irving | Grades K-9 | In-Person | New batches every 2 weeks

2 Weeks | 10 Sessions | 30 Hours | June & July

\*This brochure is for Grades K-1

# 10 Sessions

## The First Step of a Much Longer Journey

This summer plants the seed. The Bhanzu Learning Center annual program is where it grows.

### Real-World Math Learning

Traffic lights. Google Maps. Secret codes. Every concept connected to something real — so it sticks.

### Rigorous by Design

Every concept is taught to mastery. The fun is the method. The rigor is the outcome.

### Learning Through Doing

Activities are not extras here. The game is the discovery. And when discovery is this engaging, the hard work does not feel hard.

### Confident English Expression

Creative Writing, Public Speaking, news reporting, and JAMs — children learn to think clearly and speak confidently.

### The Beginning of a Longer Journey

Summer Basecamp is Chapter 1. The Bhanzu Learning Center annual program is what comes next.

Two weeks that start something much bigger.

## What Your Child Will Learn

Every course runs for 2 weeks — 10 sessions of 3 hours each. All courses are in-person, small-batch, and taught by certified Bhanzu Learning Center instructors.

GRADES K-1 | Math + English

### Course 1

## Numbers, Puzzles & Time + Reading Drills

Kids crack number puzzles through games and races, then build reading confidence through drills and a live Read-Aloud Showcase.

### Week 1

#### Math:

- Number Recognition
- Order Matters
- Number Line
- Which is More?
- Story Time

#### English:

- Reading Fluency
- Sight Word Fluency
- Finger Tracking Drill
- Repeated Reading
- Vocabulary in Context

### Week 2

#### Math:

- Add Them Up
- Take Away
- Time
- Sorting
- Memory Games

#### English:

- Reading Comprehension I
- Reading Comprehension II
- Expressive Reading
- Partner Reading
- Read-Aloud Showcase

**Course 2**

**Numbers, Art & Directions + Phonics**

Kids count, build, and navigate through stories and art, while mastering letter sounds all the way to complex word patterns.

**Week 1**

**Math:**

- Number Fluency
- Number Line
- Know the Shape
- Add Them Up
- Pictographs

**English:**

- Phoneme Awareness
- All 26 Letter Sounds
- Short Vowels Deep Dive
- Blending 3 & 4 Letter Words
- Word Families & Patterns

**Week 2**

**Math:**

- Patterns
- Symmetry
- Take Away
- Maps & Directions
- Story Time

**English:**

- Consonant Blends
- Digraphs + Trigraphs
- Long Vowel Magic-E
- Vowel Teams & Spelling
- Phonics Master Challenge

The Bhanzu Learning Center annual program is what comes next.**

# The Man Behind The Curriculum

**Neelakantha Bhanu Prakash**

Founder & CEO  
World's Fastest Human Calculator

**BBC**

"Neelakantha Bhanu Prakash is the Usain Bolt of mathematics."

## Why He Built This

- Bhanu did not build Bhanzu Learning Center to create another math program.
- He built it because he believed every child is capable of genuinely loving math: Not tolerating it, not getting through it, but loving it.
- The Summer Basecamp is the most direct expression of that belief: a curriculum he designed personally, where rigor and joy are never in conflict.
